Re: *Erratum* in Notice of Oral *Ex Parte* Presentation in MB Docket  
No. 07-42

Dear Ms. Dortch:

On November 6, 2007, Media Access Project filed two notices of oral *ex parte* meetings in the above captioned proceeding. These notices contained the following paragraph explaining the conclusions reached by Dr. Gregory Rose with regard to the appropriate rate for leased access.

With regard to the rate itself, Dr. Rose explained the conclusions of his report, filed by NAMAC, *et al.*, on October 15, 2007. In addition, Dr. Rose explained that a new economic analysis based on available ABI and Nielsen data demonstrated that the Commission should eliminate the practice of charging separate fees for services provided, and should instead impose a flat rate of approximately seven cents subscriber for analog tier, and approximately ten cents per subscriber for digital tier. Dr. Rose provides a written analysis explaining his results. That report is attached.

The rates given in the new report submitted by NAMAC, *et al.*, are given on an annual basis, as a consequence of the way in which the relevant data were reported by ABI and others. Accordingly, the \$0.0709 per subscriber and \$0.0990 per subscriber figures given in the report are *annual* rates, not monthly rates. The monthly rates would be \$0.00590833 per subscriber and \$0.00825 per subscriber, respectively.

In accordance with Section 1.1206(b) of the Commission's Rules, 47 CFR §1.1206, this letter is being filed with your office.

Respectfully submitted,

/s/

Senior Vice President
